

COVID-19 Update for Patients

This is a period of unprecedented global uncertainty. Our number one priority is the safety and continuation of care for our patients. We are taking immediate measures to ensure that all patients will be able to complete their scheduled appointments, from the safety and comfort of their homes. Below are answers to some questions our patients may have.

What does this mean for me?

For the last two years, we have made investments in our telemedicine capabilities. Today, those investments mean there will be no interruption in our service to you.

All new and returning patients will be seen over telemedicine or telephone. We will be reaching out to those with upcoming appointments by phone and by email over the next coming days and weeks. No further action is required on your part.

What if I want an in-person consultation?

Out of an abundance of caution, and on the recommendation of public health officials, all appointments moving forward will be conducted exclusively by telemedicine or telephone until further notice. Rest assured that we will continue to meet the needs of all our patients.

What do I do now?

If you have an upcoming appointment you will hear from us. If you would like to schedule an appointment or have any questions, please contact our patient hotline at **1-844-456-1515**.

Sincerely,

Geoffrey Benic, CEO

Dr. Matt Cooper

Keith White, President Clinic Operations

Aleafia Health Inc.
